Li Auto Inc. Updates Third Quarter Delivery Outlook

September 20, 2021

BEIJING, China, Sept. 20, 2021 (GLOBE NEWSWIRE) -- Li Auto Inc. ("Li Auto" or the "Company") (Nasdaq: LI; HKEX: 2015), an innovator in China's new energy vehicle market, today provided updated delivery outlook for the third quarter of 2021.

Due to the COVID-19 pandemic in Malaysia, the production of chips dedicated for the Company's millimeter-wave radar supplier has been severely hampered. As the recovery of the chip supply has been slower than expected, the Company now expects its vehicle deliveries to be approximately 24,500 vehicles for the third quarter of 2021, revised from the previous outlook of vehicle deliveries between 25,000 and 26,000 units. The Company will continue to monitor the ongoing market conditions and closely work with its supply chain partners to minimize the impact of the chip shortage on its production.

About Li Auto Inc.

Li Auto Inc. is an innovator in China's new energy vehicle market. The Company designs, develops, manufactures, and sells premium smart electric vehicles. Through innovations in product, technology, and business model, the Company provides families with safe, convenient, and refined products and services. Li Auto is a pioneer to successfully commercialize extended-range electric vehicles in China. Its first model, Li ONE, is a six-seat, large premium electric SUV equipped with a range extension system and advanced smart vehicle solutions. The Company started volume production of Li ONE in November 2019 and released the 2021 Li ONE in May 2021. The Company leverages technology to create value for its users. It concentrates its in-house development efforts on its proprietary range extension system, next-generation electric vehicle technology, and smart vehicle solutions. Beyond Li ONE, the Company will expand its product line by developing new vehicles, including BEVs and EREVs, to target a broader consumer base.
