

Li Auto Inc. November 2022 Delivery Update

2022年12月1日

BEIJING, China, Dec. 01, 2022 (GLOBE NEWSWIRE) -- Li Auto Inc. ("Li Auto" or the "Company") (Nasdaq: LI; HKEX: 2015), a leader in China's new energy vehicle market, today announced that the Company delivered 15,034 vehicles in November 2022, achieving record-high monthly deliveries and representing a 11.5% year-over-year increase. The cumulative deliveries of Li Auto vehicles reached 236,101 as of the end of November.

"We set another monthly record with 15,034 deliveries in November. In particular, Li L9 has been the sales champion of full-size SUVs in China for two consecutive months since it commenced delivery, establishing it as a top choice for six-seat full-size family SUVs in China. Meanwhile, according to the China Insurance Automotive Safety Index evaluation results released in November, Li L9 was the first domestic full-size SUV tested for 25% frontal offset impact on both the driver and passenger sides and achieved the G rating, the highest safety rating, for both tests. Thanks to its ultra-high-strength body structure, Li L9 demonstrated class-leading performance with the ability to withstand a peak force of 116,475 Newtons in the roof strength test," commented Yanan Shen, co-founder and president of Li Auto. "Additionally, we believe that users' satisfaction for Li L8 has exceeded their expectations since it commenced delivery in early November. Its deliveries and Li L9's proven success have solidified our market position in the RMB300,000 to RMB500,000 price segment."

As of November 30, 2022, the Company had 276 retail stores in 119 cities, as well as 317 servicing centers and Li Auto-authorized body and paint shops operating in 226 cities.

About Li Auto Inc.

Li Auto Inc. is a leader in China's new energy vehicle market. The Company designs, develops, manufactures, and sells premium smart electric vehicles. Its mission is: Create a Mobile Home, Create Happiness (创造移动的家, 创造幸福的家). Through innovations in product, technology, and business model, the Company provides families with safe, convenient, and comfortable products and services. Li Auto is a pioneer to successfully commercialize extended-range electric vehicles in China. The Company started volume production in November 2019. Its model lineup includes Li L9, a six-seat flagship family SUV, Li L8 and Li ONE, both of which are six-seat premium family SUVs, and Li L7, a five-seat flagship family SUV. The Company leverages technology to create value for its users. It concentrates its in-house development efforts on its proprietary range extension system, next-generation electric vehicle technology, and smart vehicle solutions while expanding its product line by developing new BEVs and EREVs to target a broader user base.

Safe Harbor Statement

This press release contains statements that may constitute "forward-looking" statements pursuant to the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "aims," "future," "intends," "plans," "believes," "estimates," "likely to," and similar statements. Li Auto may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission (the "SEC") and The Stock Exchange of Hong Kong Limited (the "HKEX"), in its annual report to shareholders, in press releases and other written materials, and in oral statements made by its officers, directors, or employees to third parties. Statements that are not historical facts, including statements about Li Auto's beliefs, plans, and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: Li Auto's strategies, future business development, and financial condition and results of operations; Li Auto's limited operating history; risks associated with extended-range electric vehicles; Li Auto's ability to develop, manufacture, and deliver vehicles of high quality and appeal to customers; Li Auto's ability to generate positive cash flow and profits; product defects or any other failure of vehicles to perform as expected; Li Auto's ability to compete successfully; Li Auto's ability to build its brand and withstand negative publicity; cancellation of orders for Li Auto's vehicles; Li Auto's ability to develop new vehicles; and changes in consumer demand and government incentives, subsidies, or other favorable government policies. Further information regarding these and other risks is included in Li Auto's filings with the SEC and the HKEX. All information provided in this press release is as of the date of this press release, and Li Auto does not undertake any obligation to update any forward-looking statement, except as required under applicable law.
